

**Title: Financial Analyst Intern**  
**Location: Kansas City**  
**Department: Finance/Operations**  
**Schedule: Part-time/Intern**

MachineryLink is seeking a Financial Analyst Intern to develop financial analysis models of repair and maintenance costs using data extracted from the INFOR Enterprise Asset Management system. This position reports to the Operations Controller and will work closely with the Vice President of Fleet Management and Field Operations, and is located at our Kansas City office.

The ideal candidate will have excellent Excel, analytical and math skills. Statistics experience a plus. Graduate student preferred.

MachineryLink is the leading and fastest growing provider of combine leasing programs to agricultural producers in North America. The company started with three combines in 2000, and today maintains the largest private fleet of combines in North America. Our headquarters are in Kansas City, MO, with operational centers near Wichita, KS and North Sioux City, SD.
